Fire Protection Information

TSPC - Series and IS-Series

Mechanical Components / Case:

The cases of all our TSPC-Units and (T)IS - Totems, are compliant to fire protection class A1 according to DIN4102-1 / EN 13501-1, which means that they are made of non-flammable materials. These materials are: metal in combination with a toughened safety glass or laminated safety glass.

Electronic Components:

All electronic boards used in our products are made of materials compliant to the highest possible fire protection classification UL994-V0, corresponding to IEC 60695-11-10.

If you want us to send you a detailed fire load calculation of our Digital Signage products, please let us know.
